International Land Systems (ILS) does not provide full technical support for the demonstration version of Cover Sheet Agent. If you have problems running the demo, you should first verify that your Internet Browser, JAVA components and printer drivers are current and up-to-date.

If you continue to experience problems, please e-mail:  
[support@landsystems.com](mailto:support@landsystems.com)

Include a description of any error message, the date and time when it occurred, your computer operating system, Internet Browser and version, printer model.

If you are a regular user and require further technical support, you may consider purchasing the standalone Cover Sheet Agent. This option includes full technical support, does not require Internet connectivity and allows you to maintain a database of cover sheets on your computer.
